the new B-1 balance bike

for kids introduces balance and speed control easy to fold for transport and storage compact lightweight and portable

Introducing the Flip B-1 Balance Bike. It's a cool, new, folding balance bike for kids aged 2 to 5. The B-1 is easy to ride, and is safe, strong and compact. It comes in fun, lightweight steel frame for active kids! The FlipBike means no more training wheels! Balance bikes are the best way for young children to learn balance, co-ordination and speed control, until they are ready to ride off take it anywhere. Unfold it with one easy click, and it's ready to ride. Fold down again, and it's ready to store or transport. Parents will love the new FlipBike too. It weighs just over three kilograms, so you can safely and independently on a pedal bike. **patent pending & design registered**
